

# Kick-off Symposium for Chiba University Glycomedicine Research Center

December 7, 2018

13:00-16:25

120th Anniversary Auditorium  
(Pharmaceutical Sciences II 1st Floor)

13:00-13:10 Introduction of Chiba University  
Glycomedicine Research Center

Dr. Hiroto Kawashima  
Chiba University

13:10-14:00 Special Lecture:  
Discovery Sulfoglycomics — Charting the under-explored galaxy of Sulfated Glycotopes for functional delineation

Dr. Kay-Hooi Khoo  
Academia Sinica, Taipei, Taiwan

14:00-14:20 Coffee Break

14:20-15:00 Roles of atypical O-glycans on Notch signaling and vascular development

Dr. Tetsuya Okajima  
Nagoya University

15:00-15:40 Biosynthesis of O-mannosyl glycan in mammals

Dr. Hiroshi Manya  
Molecular Glycobiology, Tokyo Metropolitan  
Geriatric Hospital and Institute of Gerontology

15:40-16:20 Lectins can be applied as drugs?  
Application of lectins for regenerative medicine and cancer therapy

Dr. Hiroaki Tateno  
National Institute of Advanced Industrial  
Science and Technology

16:20-16:25 Closing Remarks

お問い合わせ  
大学院薬学研究院 免疫微生物学  
推進責任者 川島 博人(ex.7845)
